

MATH 106 CALCULUS I 2024 FALL

INSTRUCTORS & LECTURES

Arda Huseyin Demirhan (3,6), Jamila Kalantarova Tarhan (5), Mutlu Kocar (2), Ayberk Zeytin (1,4,7)

Lecture 1: TuTh 14:30 - 15:40 — SNAB172

Lecture 2: TuTh 08:30 - 09:40 — SOSB10

Lecture 3: MoWe 11:30 - 12:40 — SNAA43

Lecture 4: TuTh 10:00 - 11:10 — SNAA43

Lecture 5: MoWe 11:30 - 12:40 — SOSB07

Lecture 6: MoWe 14:30 - 15:40 — SOSB08

Lecture 7: TuTh 11:30 - 12:40 — SNA158

OFFICES, OFFICE HOURS & CONTACT INFO

Arda Huseyin Demirhan

Office: SCI 109

Office hours: We 16:00-17:30

Email: ardemirhan@ku.edu.tr

Jamila Kalantarova Tarhan

Office: SCI 109

Office hours: Mo 14:00-15:10

Email: jkalantarova@ku.edu.tr

Mutlu Kocar

Office: TBA

Office hours: Mo 13:45-15:15 (If you would like to meet

apart from the scheduled time, you can always email me beforehand for an appointment.)

Email: mkocar19@ku.edu.tr

Ayberk Zeytin

Office: SCI 231

Office hours: By appointment

Email: azeytin@ku.edu.tr

ASSISTANTS:

TAs:

Mehmet Tuğrul Birtek, mbirtek19@ku.edu.tr

Mehmet Şimşek, msimsek21@ku.edu.tr

Ehsan Varasteh, evarasteh23@ku.edu.tr

Hilal Ozyurt, hozyurt24@ku.edu.tr

KOLT: Cubicle 1

Asaf Utkan Can : Mo 10:00 - 11:15, Tu 14:30 - 15:45, We 10:00 - 11:15

Serhat Guldoğan : Mo 13:00 - 14:15, Tu 10:00-11:15, Th 17:30 - 18:45

HOMEWORK AND PROBLEM SESSIONS:

PS A : Mo 17:30 - 18:40, SOSB08

PS B : Th 17:30 - 18:40, SOSB11

Self study problems will be posted on KUHub. While these will not be collected, you should take them seriously and solve them on your own. Problem sessions will be centered on these self study problems.

TEXTBOOK & CONTENT

Calculus: Complete Course by R. A. Adams, C. Essex, 10th edition, Pearson. – required

Topics to be covered: Limits and continuity. Derivatives and differentiation rules. Applications of derivatives. L'Hospital's rule. Rolle's theorem. Mean value theorem. Antiderivatives. Definition of Riemann integral. Fundamental theorem of calculus. Integration methods. Applications of integration, computing areas and volumes using definite integrals. Series and power series.

EVALUATION (tentative) :

Your progress will be evaluated according to your performance in two midterm exams and one final exam. All exams will be **face-to-face** on campus. Their contribution to your total grade will be :

$$\text{Midterm 1} - 30\% + \text{Midterm 2} - 30\% + \text{Final} 40\% = 100\%$$

Exam dates will be determined by the Registrar's Office. All the information regarding the exams (dates, content and places) will be announced on the KUHub of the course.

No remedial exam will be given.

MAKE-UP EXAM:

There will be **only 1 make-up exam** for final which will take place at the end of the semester, after the final exams at one of the days announced in the [academic calendar](#) as make-up days. For those students who have missed a mid-term exam, their final will replace the missed exam. Make-up exam is compulsory for students who missed both mid-term exams. In order to be eligible for make-up exam, an official excuse (such as health report approved by the Health Center) is required.

COURSE RECORDINGS:

We will not be asking for the lectures to be recorded.

ACADEMIC HONESTY:

Students are expected to maintain their academic integrity. Academic dishonesty in any form will not be tolerated and punished as described in the “academic integrity” section of the Koc University catalog. A detailed definition of academic dishonesty is also provided in the catalog.
